

New Sewer Project to Begin on Valley View Boulevard and Tropicana Avenue

The Clark County Water Reclamation District (District) will be starting a sewer rehabilitation project on Valley View Boulevard and Tropicana Avenue. Sewer lines will be replaced, relined, temporary bypass pumps and lines will be installed, and manholes will be rehabilitated.

TRAVEL ADVISORY

Dates: November 28, 2011 through at least February 24, 2012

Streets: Lane restrictions will be in place on Tropicana Avenue at Valley View, with two lanes open in each direction on Tropicana. Valley View will have lane restrictions as well.

As the work progresses, traffic barricades will impact each of the left turn lanes at the intersection. Motorists may not be able to turn left into or out of driveways.

Work will take place from Sunday through Friday, 9:00 p.m. through 6:00 a.m. However, lane restrictions will remain in place 24 hours a day to protect trenches, pumps and bypass sewer lines.

While work is taking place, drivers should be aware of potential delays, take precautions, and allow extra time when traveling through the impacted area. For more information and traffic updates, drivers can call the project hotline at 668-8668, or visit www.thelvpipeline.com. About the District:

The Clark County Water Reclamation District was created in 1954. It services the unincorporated portions of Clark County, within the Las Vegas Valley, as well as the communities of Blue Diamond, Indian Springs, Laughlin, Moapa Valley and Searchlight. The District collects and treats nearly 100 million gallons of wastewater each day utilizing more than 2,000 miles of pipeline and seven treatment facilities.
